

COLLISION REPAIR EDUCATION FOUNDATION
www.collisioneducationfoundation.org

The Nashville I-CAR Committee has selected the Collision Repair Education Foundation as the beneficiary of the proceeds from this tournament. The Education Foundation is the primary organization supporting and funneling charitable donations to secondary and post-secondary schools that offer collision industry training. This is important to us in the Nashville area, because we want to support students within our own community whose goal is to participate in the local collision refinish industry.

The mission of the Collision Repair Education Foundation is “to secure donations that support philanthropic and collision repair education activities that promote and enhance career opportunities in the industry.” Over \$300,000 in scholarships and grants are available to collision students this spring through the Collision Repair Education Foundation.

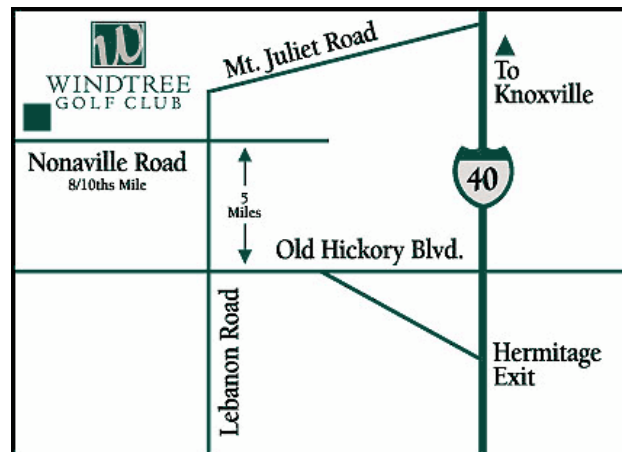

The NASHVILLE I-CAR COMMITTEE is comprised of a group of local volunteers from all areas of the collision industry—body shops, dealers, jobbers, insurers, vehicle rental agencies, and educators—whose goal is to provide educational information and opportunities to the industry in the Nashville area. The Committee is proud to work with the Collision Repair Education Foundation to help students in the Nashville area. The Committee is currently in partnership with the Aviation & Transportation Academy at McGavock High School in Nashville, TN.

Windtree Golf Course is home to many of the area's finest golf tournaments, and is one of the best manicured public golf courses in Middle Tennessee. It is a scenic, and well maintained course, with challenging holes. Don't miss out on your opportunity to play at this fine course!

***Directions to
Windtree Golf Course
810 Nonaville Rd.
Mt. Juliet, TN 37211***
